RRP AUS \$1,649.00

Product Details

FEATURES

Hob2Hood technology

Flexible triple zone

Touch and slide controls
Touch the control bar at the
necessary heat setting

STOP + GO function

Keep warm

Safety child lock

BENEFITS

HANDS-FREE HOOD

Hob2Hood automatically switches on your extractor hood when you start cooking and adjusts the fan speed based on how you are using your hob. This means you can boil, sear or stir-fry without having to touch your hood with greasy fingers.

COOK. KEEP WARM. SERVE. ENJOY.

Getting your timings exactly right when cooking multiple dishes at the same is not easy. The keep warm function maintains a temperature of 80C so that you can keep dishes hot without continuing to cook them. This is perfect when youre multi-tasking to ensure that each dish arrives at the table hot, tasty, and ready to eat.

IT'S ALL ABOUT TIMING

Do you sometimes forget to turn off the hob after cooking? You don't have to worry if you set the timer. When the time is out and you're done cooking, your hob will automatically shut off for extra peace-of-mind.

KEEP YOUR LITTLE ONES SAFE

Activate the child lock function to prevent curious little helpers from turning on the hob when it's not in use. This feature gives you peace of mind when the family gathers in the kitchen.

EASY TO CLEAN SURFACE

Cleaning up after cooking can be a real pain, but the smooth glass surface makes it easy for you to wipe up spills.

INTUITIVE TOUCH CONTROLS

Sensitive touch controls take you from simmering to boiling and back again, almost instantly. This controllability allows you to apply precise changes that can take your dishes from tasty to truly delicious. Pan-sear steak with intense heat, and then instantly drop the temperature down to protect that beautifully juicy, medium-rare texture.

Specifications
