BENEFITS

FamilySafe doors

For extra peace of mind and safety in the kitchen, we've developed multi-layer glazed oven doors with an even cooler. The Westinghouse cool doors are safer for families with young children and create a more comfortable environment in the kitchen. And the benefits don't stop there. The full-width inner glass door also ensures a better oven seal, optimal temperature control and easier cleaning.

Room for everything with FamilySize Ovens

Whether it's a big family gathering or a simple Sunday roast, you'll love Westinghouse Family Size ovens, our huge 80-litre gross capacity ovens with room for everything. The home cook's delight, the impressive width makes it super easy to get things in and out of the oven. Plus it can also fit even the largest turkey or lamb roast, so you'll never have to worry about not fitting food in. Add in A-Class energy efficiency to European standards, low heat emissions and a super quiet operation, and you have all the ingredients for the perfect oven.

Fingerprint resistant stainless steel

Fingerprints have met their match. Enjoy a family-friendly oven with stainless steel that really is stainless. It's effortless to keep your oven looking like new with our easy-to-clean, smudge-free stainless steel.

Stylish touch-on-glass controls

Styled to suit any kitchen, the flat touch-on-glass controls not only look great, but with no buttons, they're also really easy to wipe clean. What's more with a handy child lock, you won't have to worry about the kids playing with the oven or cook top controls.

Maximum choice, minimum fuss

Cooking becomes so much easier with a multifunction oven. That's because it can cater to many cooking needs with lots of options to suit all tastes. From defrosting and reheating through to steaming and roasting, now you can tackle any family meal or occasion with absolute ease.
